

Olympus Discovery Summit

Looking Forward: A New Era of Research

April 27 – 29, 2021

Olympus is proud to announce our next virtual event, the Olympus Discovery Summit—Looking Forward: A New Era of Research.

During this event, we will cover emerging technologies, best practices for a post-pandemic workplace, and next-generation models for research. With presentations including customer presentations and tech talks, this is a great opportunity to touch base with your fellow microscopists and imaging experts and learn what advancements are being made!

Be sure to attend this exciting event – register today at www.olympusdiscoverysummit.com
